Whakatauki

E hara taku toa I te toa
takitahi Engari, he toa
takitini.

My successes are not
mine alone, they are ours
– the greatest successes
we will have are from
working together.

Important Info

Individual learning plans
are in action for each child
on storypark, this is a
fantastic way for a
collaborative learning
experience between child,
teacher and whanau.

Your feedback and
comments are very
valuable and supports the
teaching team to provide
meaningful learning
experiences. If you would
like some support or more
information, please speak
with your teaching team.

Nau mai haere mai whanau;

Kia ora and welcome to everybody that has joined our Learning Links Taupo Whanau, we are so excited to be on this incredible shared journey with you and your tamariki.

Te Ra has decided to come and make his presence felt! With the weather still chilly in the mornings but warming up quickly, please remember to pack bags with a few named changes including summer clothing and hats. We have already been exploring water and ice and enjoy soaking up the vitamin D. Please also sunblock your tamariki before they come in and we will reapply throughout the day, if your child requires special sunblock please name and make sure our teaching team are aware.

Sustainability is what our centre planning and curriculum is focusing on not only with our tamariki but team knowledge as well. Reuse and recycle is where we are at and what a great way for them to use and extend their ideas and create some magical spaces. If you have anything that you could collect from home, such as cardboard tubes, bottle tops, milk bottles, yoghurt containers, corks, wooden crates, egg cartons etc. we would love and use these in so many areas of play. You might have noticed our new tyre gardens being established within the Over 2 room, our tamariki have been super busy!

Exploring our Community

We have been out and about around our centre with visits to Bunnings, Carters tyres and we can't forget Cath from Bike Taupo visiting and helping to provide our tamariki some wonderful skills and safety practices on two wheels. Cath really promotes no trainer wheels as this does prevent children from finding good core balance while learning.
